STRENGTHENING OUR COMMUNITY TOGETHER

Supporting the Foundation is an investment in the health, wellbeing, and future of individuals with developmental disabilities in our community. Through philanthropic partnerships, the Foundation helps expand programs, provide assistive technology, and remove barriers that allow the people we support to live more independent and fulfilling lives.

MORE OPPORTUNITIES

From communication devices and adaptive equipment to experiences that help individuals pursue their personal goals, interests, and dreams, these resources open doors that might otherwise remain closed.

BUILDING COMMUNITY

Community events play an important role in this work. They bring people together, raise awareness, and generate the support needed to advance initiatives that improve quality of life. These events also strengthen advocacy efforts that help ensure individuals with developmental disabilities always have access to the care, services, and opportunities they deserve.

A POWERFUL STATEMENT OF COMPASSION

The Foundation is grateful for the businesses, organizations, and community members who partner with us to make this work possible.

Together, we are building a community where every person has the support they need to live a full and meaningful life.

PARTNER WITH PURPOSE

Community partnerships make the Foundation's work possible. Event sponsorship gives businesses and organizations the opportunity to demonstrate community leadership while helping expand opportunities for individuals with developmental disabilities.

Throughout the year, our events bring together families, supporters, and community leaders to celebrate, connect, and raise support for assistive technology, advocacy efforts, and programs that help the people we serve pursue greater independence and achieve their personal goals.
